Ian Dalton

Data Architect @ Lannis | ITBA Data scientist
Buenos Aires, Buenos Aires Province, Argentina

Experience

Lannis

Data Architect

July 2025 - Present (1 year 1 month)

Buenos Aires Province, Argentina

Instituto Tecnológico de Buenos Aires

Data Structures - Teaching Assistant

February 2025 - January 2026 (1 year)

Argentina

Managed multiple groups of students, providing guidance, mentorship, and academic support.

Delivered instructional sessions on Object-Oriented Programming (OOP), simplifying key concepts to enhance understanding and engagement.

Assisted students with coursework, assignments, and project-based learning, fostering critical thinking and problem-solving skills.

Facilitated effective communication between students and faculty, addressing concerns and ensuring a productive learning environment.

Accenture

Data Engineer en Accenture

August 2024 - August 2025 (1 year 1 month)

Argentina

Developed multiple AI agents using LangGraph to automate client management workflows, enhancing efficiency and reducing manual oversight.

Independently identified and implemented automation opportunities for data entry processes using Selenium and Pandas—saving over 120+ man-hours per week and significantly improving operational flow.

Designed and delivered interactive Power BI dashboards to track project progress and performance metrics in real time, collaborating directly with client stakeholders.

Took initiative to automate a key component of a project's data-tracking system, exceeding project scope. This contribution was recognized by leadership in both companies.
